

Skin Care Products

Aquaphor is available at any major pharmacy in the area.

- Creates a protective barrier to prevent moisture loss and is semi-occlusive to let oxygen reach the wound and enhance healing.
- Has the minimal number of ingredients to be suitable for sensitive skin. Formulated with 41% Petrolatum and additional ingredients Panthenol, Glycerin, and Lanolin Alcohol to soothe and nourish skin.
- Free of fragrances, preservatives and dyes.

Cuticle oil is available at pharmacy or beauty supply stores in the area.

- As a general guideline, it is recommended to apply cuticle oil at least once a day. However, you can also apply it more frequently if your cuticles are particularly dry or if you engage in activities that can strip moisture from your nails, such as frequent handwashing or exposure to harsh chemicals.

CeraVe lotion is available at all major retailers.

- These products are formulated with a blend of three essential ceramides (ceramides 1, 3, and 6-II), fatty acids, and other lipids that are found in skin's natural barrier.
- MultiVesicular Emulsion Delivery Technology (MVE) allows many of the CeraVe products to release moisturizing ingredients over the course of 24 hours.
- CeraVe dermatologist-approved skincare products are an accessible option for those who want high-quality products without a prescription.
